

Richland County 4-H Horse Project

Pledge a Panel

Each year the Richland County 4 H Horse Project chooses to do a community service project involving the Fairgrounds. In the past we have made improvements to the Crow's Nest (building next to Ganser Arena), repaint and replace boards on the arena and refurbished the stalls in the Avery E. Marshall building. This year the Horse Project is looking to renovate the Ganser Arena but we need your help. The Horse Project's goal is to make the arena safe and maintenance free, replace the bleachers and improve the arena footings. This project is a huge undertaking not only time wise but financially. Our goal is to raise \$10,000. The arena will cost between \$6,000-\$7,000 with the remainder going towards the footings and bleachers. All donors will be part of our Wall of Fame located at the Ganser Arena.

If you are interested in making donation to this project and be on our Wall of Fame. Please complete this form and make your check payable to the Richland County 4 H Horse Project mail to:
